PANGBORN HALL CORNERSTONE AT MOUNT WILL BE LAID SUNDAY

The annual homecoming at Mount Saint Mary's College, Emmitsburg, will be climaxed at 2 o'clock Sunday afternoon with the laying of the cornerstone of Pangborn Hall, the new senior residence. The Most Rev. John M. McNamara, auxiliary Bishop of Washington, will lay the cornerstone and deliver the address.

The ceremonies will open with an invocation by Bishop McNamara. Following hymns by the Seminary Schola, presentation of Pangborn Hall will be made to Msgr. John L. Sheridan, president of the college, by Thomas W. Pangborn on behalf of himself and John C. Pangborn, Hagerstown industrialists. Msgr. Sheridan will accept the building on behalf of the college.

To Use Silver Trowel
Bishop McNamara will lay the cornerstone with a sterling silver trowel used by Bishop Alfred Curtis, formerly auxiliary Bishop of Baltimore, to lay the cornerstone at Mount St. Mary's Seminary on October 8, 1906, and at the chapel of the Immaculate Conception, April 24, 1908. Bishop Owen B. Corrigan used the same trowel at the cornerstone laying for Bradley Hall on October 15, 1915. Bishop McNamara will follow his address with benediction.

In the cornerstone will be copies of a medallion and literature celebrating the fiftieth anniversary of the Pangborn Corporation on September 1, 1904, the latest catalogue of Mount Saint Mary's College, a copy of the Mountain Echo, and various medals and materials.

Two Dinners
In addition to the cornerstone laying, homecoming activities include the annual Alumni Dinner on Saturday night at 6 o'clock and a dinner on Sunday noon in honor of Mr. and Mrs. Thomas W. Pangborn and Mr. and Mrs. John C. Pangborn. The faculty of the college and the friends of the college council and the Pangborns will also attend.

The new Pangborn Hall, being erected by the Dee Construction Company of Baltimore, was designed by F. Edward Tormey, a Baltimore architect. It will house one hundred twenty-nine students and provide chapel, recreation, and lounge facilities.

PTA WILL BUY FURNITURE FOR NEW HS STAGE

The Gettysburg Parent-Teacher Association voted Thursday evening to provide the stage furniture for the new auditorium in the high school addition now under construction. The meeting was held in the cafeteria of the high school building.

The action was taken on recommendation of the Project committee, presented by its chairman, Robert L. Bloom. He mentioned a lecture and chairs as pieces to be provided by the PTA. No cost figures were given.

Parents were urged to set a good example as drivers in a talk by John O'Brien, driver education instructor at the high school, while John P. Cessna, high school science teacher, put in a good word for the educational value of television in talks before the PTA.

Two H.S. Teachers Speak
O'Brien described the driver education course and showed a film strip of psycho-physical factors in auto driving. Pointing out that unplanned driver instruction by members of the family or friends tries to give too much information in too little time, he said the driver course at the high school attempts to teach an appreciation for the natural laws involved in driving, for man-made laws and develop a right attitude on the part of young drivers. Accident statistics show trained drivers are safer drivers, he added.

Cessna demonstrated the use of a combination slide and film strip projector, a 35mm projector for glass slides, an opaque projector, tape and wire recorders and pointed out a movie camera, projector, binoculars, screens and other visual aid equipment at the high school. Admitting that there is much on TV that "isn't worth looking at," Cessna said such programs as "Zoo Parade," "Meet the Press," "John Hopkins Science Review," "Cavalade of America," "The Medicine and Travel and Public event broadcasts fit right in with many phases of the child's world at school."

Cessna said high school boys are trained in the operation of visual aid equipment for its use in school. Mrs. Donald Sheely presided at the meeting with about 75 in attendance. Opening devotions were led by Dr. (Continued on Page 3)

FARM CENSUS ENUMERATORS ARE ANNOUNCED

Fourteen of the sixteen enumerators who will conduct the agricultural census in Adams county next month, have been selected, John A. Kindig, crew leader for the county, reported today. He added that he expects to name the next day or two.

The enumerators will visit the county's approximately 2,700 farmers to find out how much and what type of farm products they produced during the year.

In the course of doing that they will also find out how many farmers are in the county and will get information on the cost of farm labor and harvesting.

The census will also show whether the supposition of many people is correct—that the consolidation of farms into larger units has materially reduced the number of farms and farmers in the county. Every fifth farmer will be given the "full treatment" in the survey to find out just what kinds of farm equipment he has. The federal government has set up a "sampling process" to get its information on farm machinery and equipment. All farmers will be asked questions about their crops and costs but only every fifth farmer will be asked all of the questions pertaining to farm machinery.

Fourteen Enumerators
The two sections for which enumerators have not as yet been named are Gettysburg and Cumberland Twp. and Littleton Twp.

6-Year-Old Girl, Stripped Of Halloween Costume, Is Found Dead In A Cemetery

JOHNSTOWN, Pa. (P) — The nude body of a pretty 6-year-old girl who left her nearby Conemaugh home to play Halloween "trick-or-treat" was found today in the ghostly surroundings of a graveyard. Conemaugh Police Chief George Fesko said the child "was murdered by a sex fiend."

JOHNSTOWN, Pa. (P) — A little girl was found dead early this morning in an eerie Halloween setting in a cemetery two miles from her home in nearby Conemaugh. A member of a searching party, hastily organized after the girl was reported missing by her parents, stumbled across the nude body. Her tattered Halloween costume was lying near her head. Near the body was an apple and a little bag of candy which she apparently had gathered in the traditional Halloween custom of "trick or treat."

Police identified the girl as six-year-old Karen Mauk. The cause of her death was not immediately determined. Deputy Cambria County Coroner Richard P. Wilkinson ordered an autopsy, but said there were "no visible marks" on Karen's body.

Release One Suspect
Wilkinson said he couldn't "even guess" at the cause of death. Police and county detectives, who said they were working on several leads, questioned an unidentified man but released him immediately.

The parents, Mr. and Mrs. William H. Mauk, said Karen left home alone about 6:30 p.m. to join a cousin, Paul Lindenberg, about 8, to make the rounds of homes begging for Halloween favors.

The cousin returned home about 7 p.m. The girl's parents reported

Karen missing about 9:30 p.m. Police searched the Conemaugh area for two hours without success, then the fire siren was sounded to summon firemen and volunteers to join in the search. The body was discovered about 12:30 a.m. by Steve Steffish and Richard Barkley. It was taken to Johnstown Memorial Hospital for the autopsy later.

Jack Rue, a photographer for the Johnstown Tribune - Democrat, reached the death scene shortly after Karen was found. He said she was lying on the ground near a road on the outskirts of a cemetery.

The entire community was aroused, Rue reported. He said many people were standing around discussing the mysterious death. He added:

"People Fighting Mad"
"We don't know for sure what happened, but I would hate to be any party responsible for this. These people are fighting mad."

Karen was a first grade pupil at the Conemaugh public school. She had four brothers, one in the Navy, and two sisters.

SAYS DEPOSITS IN 1ST NATIONAL UP 116 PERCENT IN LAST 12 YEARS

Deposits at the First National Bank of Gettysburg increased 116 per cent in the last 12 years, Edmund W. Thomas, president of the bank, told 250 gathered at the Hotel Gettysburg Thursday evening for the annual stockholders' dinner.

As of December 31, 1942, the bank had \$2,950,980.92 in deposits, Thomas said. As of October 19, 1954, the amount of deposits was \$6,372,190.94, he said in his annual report to the stockholders at the dinner session.

President Thomas presided at the meeting at which the Rev. Dr. Theodore Cuyler Speers, pastor of the Central Presbyterian Church of New York City, was the principal speaker.

Courage From Everest

Dr. Speers used the recent ascent of Mt. Everest as the basis for his talk. "The successful ascent of the world's highest mountain, while it was a great achievement, was not in itself the cause for the great elation we all felt when Edmund Hillary and Tensing Norkey finally reached the summit. We were elated not because we are a race of mountain climbers, but because we are a race of people always seeking for something beyond. This is a discouraging time for nearly everyone. This reaching of a goal after so many years struggle gave every struggle a new aspect. It gave courage to all. When one great achievement was made, it made more possible all the other goals for which we seek, for it proved that man could succeed where he sought to succeed.

"Mt. Everest was discovered to be the highest mountain in the world by the Royal Trigonometric Survey in 1852. Serious plans to reach its summit began in 1920. Nine expeditions failed before the tenth succeeded at the end of May of this year.

Chance for Man's Dreams

"Perhaps the greatest mountaineer of all time, a man named George Mallory, lost his life somewhere near the summit of Everest as he participated in the 1924 expedition. Before he attempted to climb the mountain he remarked that the chances of success on Everest are 50 to one against the climber. As long as the human race can produce that quality of spirit, men who are willing to dare when the odds against them are 50 to 1, there is nothing that we, with God's help, cannot do. There is a chance for all the things that we as a race dream about as our goals.

"The successful attempt of last May was Hillary's fourth try for the summit and Tensing's eighth. Time and again they had been thrown back and time after time they returned confident that ultimately they would win through despite the 50 to 1 changes against them, and they were right.

"There is abundant testimony to support the conviction that there is no beckoning challenge which the spirit of man cannot accept and conquer in the course of time.

"That ought to be eternally helpful to us in our struggle for such things as world peace. This is surely the great summit of man's dreams which has not yet been reached. The odds against peace may be even greater than 50 to 1. But only the quitter will say that it can't be done. It can be done and one day peace will be won because the spirit of man will not falter until it has been accomplished.

Spirit Alone Not Enough

"But the spirit alone, however indomitable, would never have taken Edmund Hillary and Tensing Norkey to the pinnacle of the earth's surface. You don't get to the top simply because you think it would be wonderful to be there. "They succeeded because they had an infinite capacity for taking pains, by steady, patient endeavor, by endurance. There are those to whom excitement and risk are meat and drink, but the tedious business of thorough preparation does not tempt their appetites.

SIXTH MAN DIES OF INJURIES IN PHILLY BLAST

PHILADELPHIA (AP)—A sixth fireman died today from injuries suffered in the blast in the rear of a chemical plant yesterday which killed three fire officials and two other firemen.

The latest victim was James Doyle, 32. He had suffered second and third degree burns of 40 per cent of his body.

Authorities probed the cause of the blast. City officials ordered flags at police and fire stations flown at half mast for 30 days. The freak explosion — there was no fire — did not damage the inside of the two story Charles W. Berg Laboratories plant. It shattered a tank minutes after the arrival of firemen summoned by a telephoned report of seeping ammonia fumes in the area.

The plant, which manufactures chemical and oil derivatives, was empty in the early morning hours when the blast occurred.

Caused By Internal Pressure
Fire Marshall Frank McNamee said internal pressure apparently caused the explosion. The tank had an escape vent at the top which he said, apparently was clogged.

John Judge of the Municipal Licenses Department said the chemical firm failed to obtain a license for the storage of chemicals despite two notices this year from his office.

The fire marshal's office theorizes the caller may have detected fumes escaping from the 15-foot tank in the rear which contained not ammonia but a highly volatile solvent used in treating textiles.

Killed by the blast were Deputy Fire Chief Thomas Kline, 59, and Battalion Chiefs John Magrann and John News, both 61.

The two hosemen, Joseph Bandos, 50, and James Tygh, 33, died later in the hospital of burns and other injuries. Eighteen other firemen also were injured in the blast.

CALL 25 MORE JURY PROSPECTS

CLEVELAND (AP)—With the original supply exhausted, attorneys started today to examine a new panel of 25 prospects for alternate jury duty at the Sheppard murder trial.

The last two prospects of an original 75 were excused today as the trial of Dr. Samuel H. Sheppard entered its 10th day.

From the 25, attorneys hope to pick two alternates to clear the way for a jury trip through the rambling lake front home where Sheppard's pretty wife, Marilyn, was savagely slugged to death July 4.

William J. Corrigan, the young osteopath's chief attorney, told a reporter today he feels much more "relaxed" now that the regular jury has been selected.

This seemed true, too, of the atmosphere of the court this morning, before the actual business of hearing testimony begins.

A jury of seven men and five women was sworn yesterday. The alternates will serve only if any of the 12 are unable for any reason to continue once the trial starts.

Judge Edward Blythin ordered the special panel of 25 yesterday. Each side has two peremptory challenges it can use in dismissing the alternate jurors.

Corrigan yesterday renewed his motions for a delay and change of venue — transfer of the trial to another county. Both were denied by Judge Blythin.

SAYS DEPOSITS

longed. They left nothing that they could possibly think of to chance. They even tested their tents, with expedition members in them, in wind tunnels to see if they would hold up with a steady freezing wind of 100 miles an hour blowing on them.

"Besides preparing and testing food, clothing, ropes, tents, and everything that was needed for the expedition, they spent much of their time in going over the mistakes of preceding expeditions. One of the marks of maturity is willingness to face mistakes and from the study of our mistakes succeed in the future. And one of the greatest advantages we have over the Communists is just that, our willingness to learn from our mistakes, our knowledge that on the stepping stones of our dead selves we can rise to higher things.

Don't Reach Top Alone
"In the last analysis there was added, to the power of the spirit and the patience in preparation, the performance of the individuals as a team. The whole team labored together to set up the situation which enabled Hillary and Tensing to make the last strike for the top. The great majority of the team never got there. They all labored so that two might do what all would have liked to have done.

"After the victory someone wanted to know who reached the summit first, Hillary or Tensing. Col Hunt, the leader of the expedition, disposed of the question by saying 'you get to the top of a mountain only as result of climbing on a rope with other people. It is not a matter of who is first, second or last on the rope.'

"And on the summit Hillary saw Tensing, a good Buddhist, placing bread in thanks to God. Hillary placed there a small silver cross. Then, each giving thanks to God, each in his own way recognizing the plain fact that all know—we do not climb to the top alone."

More Bank Figures
Thomas reported that deposits increased by \$1,897,470.26, from \$4,474,720.68 to \$6,372,190.94, from December 31, 1948, to October 19 of this year. "It is significant that while 1,249 new loans were put on between January 2 and October 15 of this year totalling \$2,950,000, during the same period loans totalling \$2,750,000 were paid off. This shows a high degree of liquidity in loans. To substantiate this liquidity of loans, 636 loans are on a regular schedule of principal amortization and payments totalling \$35,413.60 are made on a monthly basis. Of the new loans 406 are installment loans which means we are catering to the person seeking a small loan as well as the larger loan.

"The ratio of loans to deposits is 49 per cent and the ratio of total real estate mortgage loans to total time deposits is 43 per cent.

Cites Bank's Services
"Surplus has increased by \$174,000 since 1942, and during the period from January 2, 1943, to October 19, 1954, \$189,000 has been paid the shareholder in dividends.

"In conclusion I might say a word about the services of the bank. That we have all banking services. In particular, I would stress our complete trust service. Surely no one would think it morbid if I said a word about the importance of a will, for nothing is more vital. And I urge that you consider the bank, with its experience and its perpetuity as executors of the will. In past years it has been customary to name an uncle or a son, or some member of the family an executor, but far too often the executors die before the author of the will, or they live far away and the work of executor is a burden upon them. The bank is always there, and it has the experience, the know-how to handle your affairs as you would wish them handled. We also have complete facilities for creating a trusteeship and I call them to your attention.

"We have cooperated with the merchants of the town in Friday night openings and while in its experimental stage as yet, the Friday night opening seems to be growing. We also prophesy that sometime in the future we will have to increase our floor space to take care of our increased business."

The invocation and benediction were given by Dr. Robert Fortenbaugh.

Among the out-of-county guests who were from Hanover, Lebanon, Westminster, Hagerstown, Salem, Va., Carlisle, York and Harrisburg were Franklin M. Thomas Sr., president of the Central Chemical Corporation, Hagerstown; M. C. Pledges No War To Solve Unemployment

By MARVIN ARROWSMITH
EN ROUTE WITH EISENHOWER
— President Eisenhower, opening an 11th hour aerial campaign on behalf of Republican candidates, pledged today that America never will go to war to solve the unemployment problem.

Addressing a police-estimated crowd of 2,500 persons at Cleveland Hopkins municipal airport, the President said prosperity under the Democrats was based on war.

He promised that his administration will do everything possible to find jobs for those out of work, but said the solution under his leadership never will be based on a war economy.

"Let me assure you this," the President said, "as long as a single American is out of work . . . this government will seek a better solution" to unemployment.

"We won't go to war to get it."

"GREATEST TREASURE"

It happens in each lifetime... the thing of which I write... it comes to every one of us... in daytime or at night... it steals into the heart of man... at very early age... and makes the world seem wonderful... much like a painted stage... sometimes when least expected... it holds you in its sway... and gives you untold happiness... that only dreams portray... it lives as sure as stars that shine... but it's a mystery... for gold can never purchase it... its joys are always free... a priceless gift that God has sent... the need of all mankind... wondrous thing that's all around us... yet it's very hard to find... for it must be earned and treasured... we must work to pay the cost... but it's worth all of the heartaches... ask someone who loved and lost.

MOTHER SAVES TWO FROM FIRE

A mother grabbed her two children, one two years old and the other seven months, and fled their home in Dickinson Township two miles west of Mt. Holly Springs Thursday morning as flames destroyed the structure.

Destroyed was the home of Mr. and Mrs. Junior Jumper with a loss estimated at \$2,000.

Jumper, who is employed in Carlisle, was at work when his wife discovered the blaze and fled with her children to a neighbor's home to spread the alarm.

The Citizens Fire Company of Mt. Holly Springs was called to the scene with two pumps and a portable pump but there was no water supply and the firemen were unable to save the dwelling. Workmen at a nearby sand bank saw the smoke and hastened to the scene but the fire had made such headway that they were unable to save any of the furniture.

The house was owned by Pearl Diven of Mechanicsburg.

Members of the Mt. Holly fire company are accepting clothing and other contributions for the family. Temporarily the four in the family will make their home with Jumper's mother who lives nearby. Jumper is well known in Adams County.

Pot Luck

Congratulations to John and Janet Basehoar! The stork brought a baby boy to their household Wednesday.

That's three girls and a boy for the Basehoars. Marvin tells us Joe Long is sporting another "new look" this week. You know, the Halloween Window Painting Contest the Lions Club is sponsoring again this year is a big help in keeping the kids from getting into a lot of trouble. Hardly any windows have been "soaped." Speaking of Halloween, have any goblins rung your doorbell and said, "Tricks or treats or television sets?" It's being done.

Anyone have a good cold treatment? The one Pot Luck published a few weeks ago hasn't helped the members of The Gettysburg Times staff. Mrs. Charlie Weikert, minus the cast on her hand, buzzing around town Wednesday morning feeling fine and dandy.

NEXT SATURDAY IS BOOSTER DAY FOR LIGHT FUND

On Friday, November 5, nearly 40 citizens of Littlestown will make a house-to-house canvass of the community to help raise funds for the new overhead wires recently strung on Littlestown Memorial Field.

A short circuit underground forced the postponement of the Littlestown-Susquehanna football game several weeks ago. To avoid similar difficulty in the future, wires were strung overhead at a cost of \$1,165.

A group of Littlestown residents, in cooperation with the High School Athletic Council, has volunteered to help raise funds to bear this expense. A Booster Tag Day will be conducted in connection with the Delone Catholic High School football game in Littlestown on November 12 at 8:15 o'clock.

To Ring Doorbells Volunteer solicitors will visit homes in the community starting at 5:30 o'clock, November 5, to accept donations of any amount. Each donor will be given a tag bearing the inscription, "I am a Lite Booster for the Littlestown Memorial Field."

The solicitors will also be located in the center of town that evening to contact those who wish to donate but were not at home when the volunteers called.

The booster tag will not admit the contributor to the game November 12, but will indicate those who have helped bear the expense of the new wiring.

List of Solicitors The solicitors are: Dennis Wallick, Ralph Unger, right side East King St.; Harry Strine, L. Robert Snyder, left side of East King St.; Preston Brown, Albee Rebert, Park Ave. and Crouse Park; Walter Myers, John Kump, right side of South Queen St.; Albert Bahr, Richard Selby, left side of South Queen St.; Robert Weaver, Elmer Duttera, Ray Harner, Boyer St., M St. and Cemetery St.; Clyde Crouse, Sonny Maitland, left side of West King St.; Robert Koontz, Ed Elder, right side of West King St.; Fred King, Dean Yealy, West King St. extended; Edward Leister, Robert DeGroot, Patrick Ave., James St. and West Myrtle St.; Bittle Jones, Paul Snyder, right side of North Queen St.; Clarence Schwartz Jr., Wilbur Sentz, left side of North Queen St.; Monroe Stavelly, William Witherow, Newark St. and Prince St. extended; Harold Roberts, Maple Ave., East Myrtle St. and Prince St.; Wilmer Duttera, Donald Feaser, right side of Lumber St.; Richard Knipple, Charles Weikert, left side of Lumber St.

Class Will Make Christmas Wreaths Preliminary plans for making Christmas wreaths again this year were discussed at the October meeting of the Young Men's Sunday School Class of Redeemer's Reformed Church, held on Wednesday evening at the home of the class teacher, Dr. Richard M. Phreaner, Patrick Ave. The members will gather greens for the wreaths and the time and place for making them will be announced at a later date.

Elmer W. M. Duttera, president, was in charge of the meeting, which opened with the Lord's Prayer repeated in unison. Mr. Duttera appointed the following to prepare a slate of officers and report at the next meeting: Robert H. Miller, Robert W. Hall and Lloyd E. Baker. Reports were given by Theron J. Basehoar, secretary, and Donald C. Arbogast, treasurer. The group discussed various ways of raising funds for the class treasury, but no definite projects were selected. The members briefly talked of attending an ice hockey game in Hershey and Mr. Arbogast was appointed to obtain a schedule and other information concerning the games.

Plans were made for the class to be in charge of the annual Veterans Day program in Sunday School on November 7, 9:30 a.m. Ray LeGore has been secured as the guest speaker. There will also be special music for the program. At the conclusion of the business, refreshments were served by Lloyd Baker.

7 a.m., Holy Communion will be distributed outside of mass; 7:30 a.m., mass. First Saturday, 7:30 a.m., mass; devotions in honor of Our Lady of Fatima during and following the mass.

FIFTEEN YEARS AGO
Substitute P. O. Clerk Is Named:
P. Harmon Furney, North Stratton Street, manager of the American store on Carlisle Street, will begin work on Monday at the Gettysburg post office as a substitute clerk, it was announced today by Assistant Postmaster George P. Black.

Mr. Furney's appointment was made from the current eligible list which he headed with an earned rating of 91.2 per cent. He will work when needed and will be eligible to perform substitute carrier duties also.

His appointment was made necessary by the extended illness of Luther E. McDowell, regular city carrier, who has been unable to perform his duties since August.

Mr. Furney was graduated from the Gettysburg High School in 1934 as the valedictorian of his class and attended Gettysburg College. He was employed at Trimmer's five and 10 cent store before entering the employ of the American Stores company about three and a half years ago. He has been manager of the Carlisle Street store since August 7.

Jacob L. Topper Expires At 80:
Jacob L. Topper, 80, died this morning at 2 o'clock at the home of his daughter, Mrs. James Arnold, Emmitsburg, from a complication of diseases. He had been in failing health for several years.

The deceased was a son of the late James B. and Elizabeth Topper. About 20 years ago he retired as a blacksmith and funeral director. He was a member of St. Joseph's Catholic and the Holy Name society.

Roosevelt Smiles At 3d Term Talk:
Washington, October 27 (AP) — President Roosevelt met third term questions today with a smile and a suggestion that his press conference should confine itself to news. The conference was the first since Secretary Wallace had remarked in San Francisco that the European war would make a third term desirable and Stephen Early, White House press secretary, had commented stinging that Wallace should have consulted the President before he talked on the subject.

Returns From Hospital: Mrs. Edgar L. Deardorff, Carlisle Street, returned to her home on Wednesday from West Side Sanitarium at York where she had been a patient for several weeks. She is greatly improved following a major operation.

Longstreet's Widow, Aides Here To Select Memorial Site: Members of the Longstreet Memorial association which was formed here last year during the 75th anniversary celebration returned to Gettysburg today under the leadership of Mrs. Helen Dorthe Longstreet, widow of the Civil War Confederate corps commander, to select the site for an equestrian statue to be erected in his memory.

This afternoon at 2:30 o'clock the party left the Hotel Gettysburg for a battlefield trip on which final selection is to be made.

Birth Announcement: Chief of Police H. S. Roberts, Littlestown, and wife announce the birth of a daughter at the Warner Hospital this morning.

COURAGEOUS — BUT LONELY!

I have been reading the boiled down stories of many famous men that a friend wrote. One thing stood out, as characteristic of these men whose ideas and influence so dominated the time in which they lived. They stood alone!

How sacred, how warming to the blood, the memory of men who had convictions, and who dared maintain them against all threats of lost personal fortune or political prestige. They remain today the genuine patriots whom we delight to honor.

Columbus stood alone when they told him that his dream of a new continent and a new world was but a dream. And how often Lincoln walked alone in the night praying for war to end and for the time when a nation might happily be reunited again.

I recall the story of a great surgeon who was called in consultation over the serious condition of a little boy, the son of a noted man. There were five other surgeons who demanded an immediate operation, but that one surgeon opposed it and contended that such a course would prove fatal. He stood his ground—alone. The father had confidence in him and the boy lived!

It takes real courage to stand alone—especially when to do so may mean the loss of friends, or temporary acclaim.

In our personal lives there are always certain times that arrive when we must stand alone—when we must decide for ourselves, allowing neither friend nor circumstance to interfere. General Lee stood alone as he looked across the Potomac from Arlington and counted the cost of the decision he had to make.

There are times when no one can safely advise us—when only our inner soul has a voice that we are bound to respect.

JIMMY AND JENNIE
Jimmy talking of his Jennie said: "I live a troubled life. I long for peace and quiet, but I have a nagging wife. She keeps asking me for money, more and more than I can spare. For hats and shoes and dresses and the things she wants to wear."

"Once I vowed I'd up and leave her, but I knew that would be wrong. For it's plain without the other neither one can get along. But her constant 'Gimme! Gimme!' is what's most disturbing me. Since Jennie has the notion money grows upon a tree."

"If she wants another bonnet and I can't afford the price, The names that Jennie calls me are not loving ones or nice. I'm a tightwad! I'm a miser! I'm a penny-pincher, too! She once vowed to love and cherish, but she finds it hard to do."

UNION MANEUVER KILLS HOPE FOR LONDON TRUCE

By HAL COOPER
LONDON (AP)—A last minute union maneuver which knocked out a tentative truce plan sent Britain's crippling waterfront strike into its 26th day today.

The government apparently still had hopes of a back to work movement over the weekend, however. Waterfront observers said the government could hardly delay longer the use of troops to unload vital foodstuffs and other imports. Some 43,000 workers are idle in the work stoppages at the nation's main seaports.

The end of the walkout appeared imminent last night when dock employers in London agreed to an armistice on the main issue—whether dock workers should have the right to turn down overtime work. Overtime now is compulsory. Employers maintain this is necessary because of the effect of tides on handling cargoes.

Want Same For All Ports
Under the truce formula the dockers would return to their jobs, pending negotiation of their grievances. While negotiations were going on, employers would refrain from disciplinary action against any workmen who refused overtime.

Leaders of the National Amalgamated Stevedores and Dockers Union at first seemed inclined to accept the armistice proposal. But after a long huddle they came up with a demand that the same formula be extended to all ports outside London.

The Ministry of Labor said this was impossible because there was "no dispute about overtime in other ports where sympathetic stoppages have occurred."

Called Red Plot
The stevedores' group represents only 11,000 strikers and almost its entire strength is in London. Most of the other men on strike belong to the Transport and General Workers Union (TGWU). Leaders of the TGWU have denounced the walkout as a Communist conspiracy.

Friction among union groups has been pointed up by the work stoppage. The stevedores' union has been suspended from the Trades Union Congress, Britain's ruling body, for "poaching" on the TGWU.

The Daily Herald, spokesman for the Trades Union Congress, said conceding to the stevedore demand for a national agreement now "would give them recognition to which they are not entitled."

A total of 346 ships are idle in London, Liverpool, Southampton, Hull, Manchester, Birkenhead and Rochester.

BOHLEN SEES MOLOTOV OVER CAMERA AFFAIR

By STANLEY JOHNSON
MOSCOW (AP)—U. S. Ambassador Charles E. Bohlen called on Soviet Foreign Minister V. M. Molotov at the Kremlin Thursday to discuss the tense situation arising out of incident involving two American Embassy wives and their cameras.

Informants said Bohlen stressed the seriousness with which the United States regards the Soviet action in the case of Mrs. Karl E. Sommerlatte, wife of the second secretary in the Embassy, and Mrs. Houston Stiff, wife of the assistant naval attaché.

The Soviet Foreign Ministry has declared Mrs. Sommerlatte personally unacceptable in Russia, which amounts to a request that she leave the country. If Molotov persists in that direction despite U. S. protests and Thursday's personal intervention by Bohlen, Mrs. Sommerlatte has no choice but to comply.

Accused Of "Hooliganism"
Mrs. Sommerlatte was accused of "hooliganism," the Soviet term for rowdiness, during an incident last Monday stemming from attempts by her and Mrs. Stiff to take some pictures of Soviet children. The United States says the Russians have the facts all wrong.

Today the Soviet press took up the case with stories campaigning vigorously against what it said was the "unworthy behavior of the wife of an American diplomat."

Says She Struck
But Mrs. Stiff says it was she who struck a blow in an effort to free Mrs. Sommerlatte, who was being forcibly held at the door of a workers' club.

Queen Acts Like Tourist In Gotham

NEW YORK (AP)—Queen Mother Elizabeth of England spent her first day here much like other visitors to the big town — she toured the Metropolitan Museum of Art and saw a Broadway show in the evening.

The royal tourist also attended a luncheon given in her honor Wednesday by the Canadian Club in the Waldorf-Astoria, and unveiled at the club a formal portrait of her daughter, Elizabeth, Queen of England.

The club gave her a gold medalion.

club when objections were made to photographing the Soviet children. Both Mrs. Sommerlatte and Mrs. Stiff said they did not want to see anything of the club, and had quite a scuffle trying to get out.

Finally Sommerlatte arrived at the club in response to a phone call from Mrs. Stiff. The women drove off with Sommerlatte after about an hour and a half at the club.

The incident occurred while the women were out for a morning stroll, snapping pictures as they went along. They had taken shots of a restoration work on the ancient murals of an old church and had distributed some colored photographs of the building among church officials.

Thursday both women stayed at home in the American Embassy. Today Mrs. Stiff plans to go out to a Halloween pageant at the joint British-American embassy school in which her 6-year-old daughter, Sparkle, has a part.

Bill Ward Will Replace Lewandowski When Bullets Meet Lafayette At Easton

Bill Ward, 6-4 sophomore end, will be in the Gettysburg College starting lineup when the Bullets meet Lafayette Saturday afternoon at 2 o'clock on the Leopards' gridiron at Easton.

Coach Johnny Yovicsin announced today that Ward will replace Dick Lewandowski, junior, who suffered a fractured right elbow in the game with Muhlenberg here last Saturday.

No other change is expected to be made in the Bullet starting lineup which will include the following: Ends, Ward and Fred Alleva; tackles, Bob Dickson and Frank Eckert; guards, Bill Weitzel and Carl Beck; center, Sheldon Yungst; backs, Frank Gagliardi, Bruce Pieper, Jim Megee and Bob Eppelman.

Hart Beaver, 220-pound tackle, has fully recovered from a recent injury and will be ready for full-time duty.

Leopards Improving
Lafayette opened its campaign with a 26-0 win over Albright and then lost decisions to Carnegie Tech 23-21 and Muhlenberg 27-0 before triumphing over Buffalo 26-0. Coach Steve Hokuf's outfit, showing steady improvement with each week-end, surprised last Saturday by holding undefeated Bucknell to a narrow 7-0 verdict.

The Leopards have 16 lettermen on their squad and are captained by Russ Hedden, 192-pound center.

Saturday's game will be the first between the schools since 1947 when Lafayette won 14-13. In 13 games played, the Leopards have copied 11 and lost but two.

WGET will broadcast the game, with air time set at 1:55.

CLUB POSTS 10,000 ACRES

The Executive Committee of the Natural Dam Sportsmen's Club has announced that the lands of its members are being posted against trespassing during the current game season. The hunting of small game will be restricted to residents, members, and those holding guest cards which the club furnishes to the landowners. Buck hunting will be by members only.

This applies to an area of approximately 10,000 acres which the club controls, situated from the road upon which the Barlow Fire House is located, on the north, to the Emmitsburg road on the west, to the Maryland State Line, on the south, and to the Taneytown Road, on the east.

The Executive Committee asks all other hunters to "respect the rights of club members to protect their property from trespassers, and to aid the members in the protection of game, and in the strict observance of all rules and regulations issued by Pennsylvania Game Commission."

INDICTED FOR ROBBING MAIL

SCRANTON, Pa. (AP)—A federal grand jury has indicted Richard E. Gatewood of York on a charge of stealing 19 letters from the mail and extracting checks from them.

The thefts occurred in York during August and September, U.S. Atty. J. Julius Levy said, Levy added that Gatewood forged four of the checks and cashed three of them. The checks ranged in value from \$78 to \$166.66.

Also indicted yesterday was John B. Kemel, a Philadelphia contractor charged with attempting to bribe two civilian inspectors at the U.S. Army Signal Corps Depot at Tobyhanna.

The alleged bribe took place July 30. The inspectors, Walter Golden and John O'Donnell, were in charge of passing on a painting contract at the depot.

A long-winded fellow was Clarence "Ace" Parker who returned a punt 105 yards for Duke against the University of North Carolina in 1936.

American League May Be Forcing A's Into Kansas City; Fail To OK Philadelphia Deal

By JOE REICHLER

NEW YORK (AP)—The American League apparently has forced the Philadelphia Athletics into Kansas City.

Blocked in its efforts to sell the club to a Philadelphia syndicate, the Mack family was expected today to resume negotiations for the sale of its stock to Arnold Johnson and the transfer of the Philadelphia franchise to the Missouri City.

In a special meeting yesterday, the American League voted to reject the bid by an eight-man Philadelphia group to buy the Athletics and keep the club in Philadelphia. The vote, according to an American League executive, was 44-6. Six affirmative votes are needed to approve any owner.

No Reason Given

No reason was given for the turnout of the syndicate. However, the opposition appeared to stem from a desire to get the league out of Philadelphia.

League public relations director Earl Hilligan, who made the announcement at the conclusion of the six-hour meeting, simply said: "The transaction presented today by the Philadelphia group failed to receive a vote of approval. The meeting was adjourned to permit the Macks to return to Philadelphia to attempt to work out their problems."

Macks Must Agree
Hilligan did not amplify the statement, but several club owners indicated they were not satisfied with the "divergence of opinion" in the Mack family on how, or to whom the stock should be sold.

"It seems to me," said Charles Comiskey, vice president of the Chicago White Sox, "that the Macks can't get together on what they want to do. One wants one thing and another wants something else."

"I will not come back to any more meetings until the Macks (91-year-old Connie and his two sons, Roy and Earle) have settled their own affairs among themselves. There are others who feel the same way."

Will Harridge, president of the American League, said no further meetings were planned, and it now was up to the Macks to settle their own affairs.

"As far as the league is concerned," he said, "the Macks have the ball club. They own the stock. They are going to operate the club."

Baseball people, however, doubted the Macks could do that financially, and predicted they would renew negotiations with Johnson, who recently offered \$3,375,000 for the entire stock plus Connie Mack Stadium. In an Oct. 12 meeting in Chicago, the American League approved the sale to him and also the transfer of the franchise to Kansas City.

"All Roy's Fault"
The Macks in a surprising switch Oct. 17 had ended negotiations with Johnson and agreed to sell to the Philadelphia group.

Connie Sr. and Earle appeared dejected after the meeting. The former had made an impassioned plea to the other seven owners to sanction the sale to the Philadelphia syndicate "because I want so much to see the Athletics remain in Philadelphia."

Earle blamed his brother, Roy, for the failure of the sale to go through.

"It's all Roy's fault," said Earle. "He's thinking only of himself. I'm thinking strictly of dad. I want to do anything he wants. If it weren't for dad, neither Roy nor I would be in the business. He's given us our bread and butter."

Favor Mexicans To Win Team Title
HARRISBURG, Pa. (AP)—The team championship of the Pennsylvania National Horse Show will be decided here today with a hard-fought group of Mexicans the favorites to succeed the United States to the title.

Led by Gen. Humberto Mariles, the Mexican officers are in second place, four faults behind the Spanish team which leads the competition with no faults.

GAME SEASON OPENS NINE A.M. ON SATURDAY

HARRISBURG (AP)—State game officials looked toward tomorrow's opening of the small game season in Pennsylvania with optimism tempered with a warning against hunting accidents.

The season for legal kills of a variety of small game will begin at 9 o'clock tomorrow morning and continue through Nov. 27.

Sunday hunting is illegal. Legal hours every day except tomorrow will be between 7 a.m. and 5 p.m. Opening day time limit is 5 p.m.

Legal game will be ruffed grouse, bobwhite quail, wild turkey, ring-neck pheasant, cottontail rabbits and gray, black and fox squirrels.

"From reports I've received from the sportsmen and our own people, I feel that we are going to have a very good season," said Dr. Logan J. Bennett, executive director of the State Game Commission.

By way of warning, Bennett said:

"With a little caution by a lot of people we can have far less accidents."

"Hunting is a grand sport and everybody should be very careful in handling guns so that it remains that way."

This is the second time in many years that the season opened on a Saturday.

Last year 14 persons lost their lives during the small game season. A total of 18 was killed the year before and 14 died in 1951.

Referring to his prediction for a "very good season," Bennett said, "We've had quite a bit of moisture so hunting conditions under foot should be good and the game population seems to be just what it should be."

He said the sale of 1954 hunting licenses is running "about what it was last year" but added that with a big surge this week "it probably will end up a little higher."

Last year's total of 859,783 residents and 30,664 non-resident permits was a state record. The resident license costs \$3.15 and can be bought from issuing agents throughout the state. Non-resident licenses cost \$20.

ke Wants GOP Congress To Keep U.S. From Political Fiddling While World Burns

WASHINGTON (AP)—President Eisenhower—sounding a “let’s roll our sleeves and go harder to work” theme—flies today to the 1 of embattled Republican candidates in Ohio, Michigan, Kentucky and Delaware.

The President called on supporters last night to ring doorbells over the nation in an 11th hour drive to get voters to the polls next Tuesday and elect another Republican-led Congress to keep our government from political fiddling while the world burns.

Eisenhower spoke to a coast-to-coast television and radio audience and an approval-shouting 500 diners at a Citizens for Eisenhower Congressional Committee rally in Washington.

If the Democrats recapture the legislative branch, Eisenhower said, the government—with the White House Republican for the next two years—will wind up “in a hopeless jam.” He added:

“Let’s all of us—you and I—let’s roll up our sleeves and go harder to work—for a stronger America, good government and a world at peace. Let’s have another Republican-led Congress.”

The Chief Executive arranged to take off from Washington’s National Airport at 7:25 a.m. EST on today’s swift 12-hour aerial campaign tour to Cleveland, Detroit, Louisville, Ky., and Wilmington, Del.

He was scheduled to speak at Cleveland’s Municipal Airport, in Detroit’s downtown Cadillac Square, at the Louisville Airport and at New Castle Airport in Wilmington, Del.

In all four states there are key contests for U.S. Senate seats with Republicans in hard fought battles against Democratic opponents. Fifty House seats also are at stake, and Michigan and Ohio are electing governors.

In Ohio, GOP Rep. George Bender is running for the Senate against the Democratic incumbent, Thomas A. Burke, who was appointed to the seat of the late Sen. Robert A. Taft.

Tough Michigan Race

The Michigan race pits Sen. Homer Ferguson, chairman of the Senate Republican Policy Committee, against a hard challenging Democratic opponent, Patrick V. McNamara.

The Kentucky Senate contestants are former Senator and Vice President Alben W. Barkley, a Democratic, and GOP Sen. John Sherman Cooper.

In Delaware, Democratic Sen. J. Allen Frear Jr. is bidding for reelection in a race with Republican Rep. Herbert B. Warburton.

In his address last night the President called on the Eisenhower Citizens Committee to work up “the same enthusiasm and fervor with which we burned two years ago.” He said that means “talking to your neighbors, using the telephone, ringing doorbells” to get out the vote.

Hardest Hitting Address

The Chief Executive’s address was perhaps his hardest hitting of the campaign in dealing with what he called the dangers of a politically divided government.

He said he was neither exaggerating nor accusing on this

Property Transfers

The following property transfers have been filed with the office of the register and recorder:

In 1949, The Hanover Shoe, Inc., sold to Newell E. Coxon, Paxtang, Pa., for \$28,000, a property in East Berlin. The deed was filed Wednesday.

Newell E. Coxon and wife sold the same property to Julius Bernstein and wife, York, for \$20,000.

Mr. and Mrs. Bernstein sold to Mr. and Mrs. Coxon for \$6,000, a tract of land in Reading Twp.

Sidney A. Simmons and wife, Cumberland Twp., sold to Edward R. Paris and wife, 72 Steinwehr Ave., for \$12,500, a tract of 7 1/2 acres in Cumberland Twp.

Glenn S. Welland and wife, R. 3, sold to Philip E. Johnson and wife, 17 N. Washington St., for \$1,200, three tracts in Cumberland Twp.

Winnie Completes 30 Years In House

LONDON (AP)—Prime Minister Winston Churchill today completed his 30th consecutive year as a member of the House of Commons.

Altogether, Churchill has served a total of 52 years in the lower house of Parliament—more than any other present member. He was elected first in 1900 but missed the years 1922-24.

score, but that—and he listed both Republican and Democratic cases by way of illustration—it is simply the way politics has often been played in Washington.

“One Republican and two Democratic presidents have, in this generation, testified to the stagnation, frustrations and political feuds that result when one party controls the Congress, the other the executive branch,” he said.

Eisenhower said that under his administration and the Republican-run 83rd Congress “we have an America at peace” and “we have a prosperous America.” And he declared to applause:

“We have proved at last that America can go from war to peace without a terrifying depression.”

Turning to foreign affairs, the President said the nation needs “undivided leadership” in that field. He added:

“We can not pursue peace so effectively with divided leadership which can provide evasion of responsibility and affords to both parties alibis for failure.”

Eisenhower continued:

“For the good of America, our governmental traffic must be efficiently handled. We won’t get anywhere with red lights at all the governmental cross roads. Add to this, two drivers on every governmental steering wheel, each trying to go in a different direction, and we shall certainly end up in a hopeless jam. . . .”

LADIES, YOU CAN CARRY A THING TOO FAR!

It's nice to stick to old customs that have been handed down, such as... something borrowed, something blue for the bride... mistletoe at Christmas and things like that. But, sometimes you can carry the habits you inherit too far for comfort. Drying clothes the old-fashioned way is one of them. The struggle with pins, poles and clothes lines still goes on and on. Lugging and hauling wet wash from the house to the backyard hasn't changed a bit since your great great grandmother's day. It was a back breaking job then and it's the same today. Nobody has ever found an easier way to do it... and he never will. That's why Electric Clothes Dryers were invented!

When you dry clothes electrically you can stay in the house all day if you want... unless you'd rather putter in the flower garden you planted where you used to hang your wash. And, you'll have plenty of time to do it, too... while your Electric Clothes Dryer is at work for you.

And you'll discover something else. In addition to drying clothes faster, an Electric Clothes Dryer cuts down on your ironing time. Some pieces need no ironing at all. Honestly, you'll work less and have cleaner clothes that will look better and last longer, with an Electric Clothes Dryer.

We have a suggestion. Stop in and see your appliance dealer today... especially today. He has a Special Offer that will make it easy for you to have an Electric Clothes Dryer. These are DRYER BUYER DAYS in his store... take advantage of it. You won't be carrying things too far!

STAUFFER VOTE IS AFFECTED BY LEADER SURGE

YORK, Pa., (AP)—Rep. S. Walter Stauffer, 66-year-old retired manufacturer who defeated the Democratic incumbent for a seat in Congress in the Eisenhower sweep of 1952, faces a rough battle for reelection in the 19th District which includes York County—the home of George M. Leader, Democratic nominee for governor.

Stauffer and S. S. Lewis, forests and waters secretary and York County GOP leader, freely concede that Leader will carry traditionally Democratic York County in his contest for the governorship.

The double-barreled question is (1) by how much and (2) whether Leader's popularity at home will measurably affect the vote given to Stauffer's opponent, James M. Quigley, 36-year-old Cumberland County Democrat who lives in Camp Hill and practices law in Harrisburg.

Stauffer says he can lose York County by 5,000 votes and still win out in the 19th Congressional District which also includes Republican-dominated Cumberland and Adams counties.

Lost County In 1952
In 1952, Stauffer lost York County by 8,000 against Democrat James F. Lind, a York Countyman, but Cumberland County gave him a

majority of 11,500 votes and Adams County, 2,500 votes.

Quigley's supporters recognize the potent Republican vote of Cumberland County.

But they point to the fact that Quigley lost Cumberland County by only 5,000 votes in 1950 when that county was part of the Dauphin-Lebanon-Cumberland congressional district.

Quigley says he hopes to gain strength from a bitter Republican primary fight in Adams County last May. Lewis bitterly opposed Stauffer in the primary but now is backing him to the hilt.

Stauffer is campaigning on his record of support of the Eisenhower program.

"My campaign is wholeheartedly based on the premise that Eisenhower needs a Republican Congress to carry out his program," Stauffer said.

Got Federal Aid

Stauffer also points to his work on the House Public Works Committee which he said, was responsible in part for an allocation of 44 million dollars in federal road funds to Pennsylvania.

Quigley is disputing Stauffer's claim of supporting the Eisenhower legislative program. He said his GOP opponent voted against the President's housing and public health programs and the St. Lawrence Seaway Project.

"Something must be done about the farm situation insofar as it affects the family farmers in central Pennsylvania," said Quigley. "The Benson program is aimed at

"PAT" WEAVER, YOUR INSURANCE MAN, SAYS:

Life insurance companies have a policy to suit every purpose these days. In addition to the straight life policies and the various endowment plans, the Mortgage Redemption, and Annuities at Age 65 to supplement inadequate Social Security payments, are becoming increasingly popular.

The Company represented by this Agency issues a unique policy which returns to the insured at the end of the policy term every cent he paid in premiums, thus in effect giving the insured 22 years of modern life insurance protection free. If he does not want to withdraw all premiums paid at that time, he may withdraw a specified part of them, and have the policy paid up in full for life.

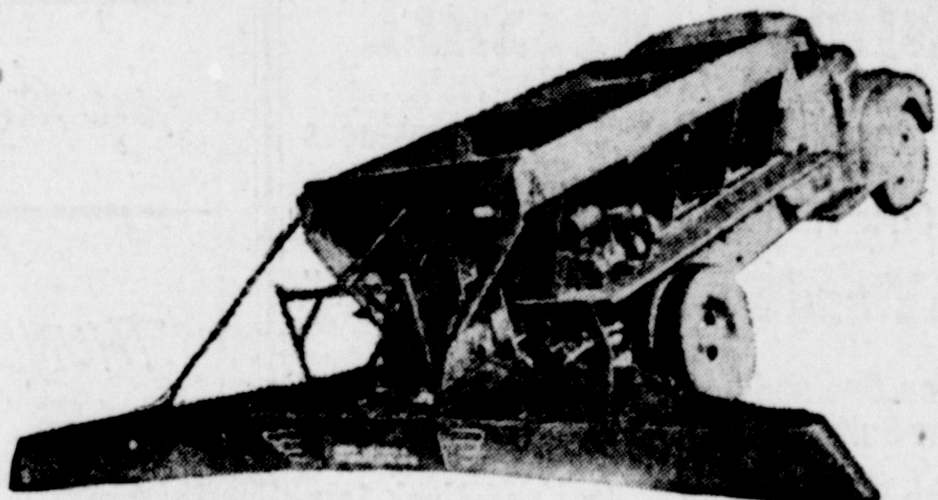

Another interesting plan, especially suitable for children, is the "Save \$500" Policy. The amount of insurance in force during the policy term is almost three times the amount being saved.

Sunday School Lesson

By
Rev. Dr. Howard R. and Margaret C. Gold

THE DIGNITY OF WORK

Proverbs 6:6-11; 18:9; 24:30-34
Key Verse: Seest thou a man diligent in his business: He shall stand before kings; he shall not stand before mean men. Pro. 22:29

God's plan for conducting the affairs of His world is by cooperation between Himself and man. He created, and man is to furnish the necessary skill and labor to provide what is required for man's daily needs and happiness. God also endowed man with mind, heart and hand to carry out his part.

In His generosity God filled men's cup full even to overflowing. With a lavish hand He has furnished the good earth with what we call natural resources. One cannot stand before the giant trees of California without a feeling of awe and gratitude and so with the far-flung water courses which the skill of

man is directing into dry areas until the deserts blossom like the rose; and provide bread for the hungry. Now the marvel of what can be done with the atom! If only man can be sane enough to develop it for peaceful and beneficent purposes. Can we think of a higher dignity for man than to cooperate with God in fulfillment of His noble design?

But there are men who will not work; not even with God. Proverbs calls them sluggards. A slug seems to belong to the snail family. But unlike the snail it is too lazy to have a trailer-house. Proverbs, in chapter six, advises this fellow to go and learn from the ant which is foresighted and lays in food during the harvest against the time of poverty and want. That kind of man is well known in our day. Another sort is mentioned in Proverbs.

"He who slacks in his work is a brother to him who destroys." A slacker in our day is one who loafs on the job he is supposed to perform with energy. In fact he is a robber and stealing is wrong by almost any code of ethics. So, of course, is the destroyer of goods. It is interesting to note how relevant the precepts in Proverbs are to practice of our time; and probably of all times.

Again, Proverbs says: "Do you see a man skillful in his work? He shall stand before kings." A high reward in the days when a king was the greatest official. Any task, if well done, it is assumed was so recognized. Any honorable work when well done is dignified. Our assigned lesson closes with a parable: "I passed by the vineyard of a sluggard—and lo it was all covered with thorns." It was actually God's vineyard. He gave man soil, seed, sunshine and rain. The sluggard was merely the keeper of it, and a lazy keeper at that. The parable illustrates much. God has called people into partnership with Him. He has provided the means for a successful enterprise,

and it fails because of indifferent tenants. Jesus gave nobility to the common labor of His day. He was sent by His Father to redeem mankind from sin. He accomplished that mission in three years. The rest of His adult life, we may assume, was given to the carpenter's trade. He was known as the carpenter of Nazareth. He chose His disciples from the working people. His kingdom will be extended throughout the earth in due time by followers of Christ who work unceasingly with hand and heart and mind.

"Heaven is blessed with perfect rest.
But the blessing of earth is toil."

EVERYONE WELCOME

Me, afraid of the dark?

My name is Mary . . . and I want you to know I'm not afraid to go to bed by myself.

I have a bright candle to light my way. I have Mommy and Daddy to care for me.

But do you really want to know why I'm not afraid?

In Sunday School, I learned about Jesus. I know he loves me and watches over me.

At night when I blow out the candle, and Mommy and Daddy are away, I am not alone. Jesus is with me. I remember how he said long ago to his disciples: "Let the little children come unto me . . . for to such belongs the Kingdom of Heaven."

I wonder if your children know about Jesus? Won't you take them to Sunday School next Sunday?

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

By ED CREAUGH (For James Marlow)

WASHINGTON (AP)—One of the things Americans pride themselves on is that every man accused of a crime is entitled to a fair trial.

This works two ways, of course. Just as the trial must be fair to the accused, it must give the accusers — the government — a fair shake too.

Almost always when a cry of bias is raised it comes from the defendant. But now such a cry comes from the government, by way of the Justice Department.

The government claims it can't get a fair trial of Owen J. Lattimore, the long-controversial Far Eastern specialist, because the trial judge, Luther W. Youngdahl, is biased in Lattimore's favor.

And U.S. Dist. Judge Youngdahl, refusing to take himself out of the case, charges Justice Department lawyers with trying to intimidate the courts.

Judge Voids 4 Counts

It's a strikingly unusual situation. Here is how it came about:

Late in 1952 a federal grand jury indicted Lattimore on charges of lying to a Senate subcommittee. There were seven counts in the indictment. They charged that Lattimore lied when he said he never had been "a sympathizer and promoter of communism and Communist interests."

Lattimore's lawyers went to court — asked that the indictment be thrown out. Their petition went before Youngdahl, a Republican governor of Minnesota until he went on the federal bench, and Youngdahl threw out four of the seven counts. He held the key charge and three others were too vague to have any legal meaning.

But he went beyond that. He also voiced "serious doubt" in his written opinion whether the three remaining charges would stand up in court either.

The government protested. It asked the U.S. Court of Appeals to put back the four counts knocked out by Youngdahl. The higher court did put back two of them. But it upheld Youngdahl 8-1 on the main issue and ruled the "sympathizer and promoter" charge mustn't go to a jury.

U. S. Starts Again

So the government, in effect, started over again. It laid its case before a new grand jury. And early this month Lattimore was indicted for a second time. This time that word "sympathizer" was left out. Instead Lattimore was accused of falsely denying he had been a "follower" of the Communist line and a "promoter of Communist interests."

But the government wasn't through yet. The federal prosecutor, U.S. Atty. Leo A. Rover, formally asked Youngdahl to remove himself as the judge in Lattimore's forthcoming trial.

Rover said he wasn't questioning Youngdahl's honor or integrity. But he declared Youngdahl has "a fixed, personal bias and prejudice" in favor of Lattimore. And he said this is proved by the language Youngdahl used in ruling on the original indictment.

Under the law, all Youngdahl had to do at this point — without going into the 84 legal words involved — was either get out of the case or dismiss the government's protest. He didn't have to give reasons. In fact, as Youngdahl himself noted, the law doesn't let him pass on the truth or falsity of such charges as Rover made.

But Youngdahl, in announcing he would stay on the bench in the trial, chose to blister the hide of Rover and — by implication — of the whole Justice Department. He said those who challenged him acted "irresponsibly and recklessly."

And he declared:

"... I cannot escape from the conclusion that the purpose of the affidavit is to discredit, in the public mind, the final action of the courts, or else to intimidate the courts themselves."

STATE TO STOCK WITH FISH FOUR MORE RIVERS

HARRISBURG (AP)—Because of improved water conditions, the State Health Department said Thursday sections of four Pennsylvania rivers have been added to the regular stocking program of the fish commission.

Dr. Russell E. Teague, health secretary, said more than 100 miles of river is being stocked for the first time in many years.

He credited the move to the success of the state's clean streams program.

The rivers are the North Branch of the Susquehanna, the Shenandoah and the Schuylkill and Lehigh.

Teague said the commission is planting black bass, sunfish, catfish and suckers in these waters for the first time this year.

Susquehanna North Branch — Six miles in Luzerne County; 20 miles in Columbia County, and 11 miles in Montour and Northumberland.

Shenandoah — 16 miles in Lawrence County.

Lehigh — 20 miles in Lehigh and Northampton counties.

Schuylkill — Six miles in Philadelphia; 16 miles in Berks, and 21 miles in Montgomery.

Teague said some of the streams were stocked experimentally last year.

Bar Assn. Calls For Judges' Re-Election

HARRISBURG (AP)—The Pennsylvania Bar Assn. says an independent judiciary is essential to the preservation of justice.

The group made the statement Wednesday in its support of the three Pennsylvania Superior Court judges for reelection next Tuesday.

The association is backing the election of Judges Chester H. Rhoads and F. Clair Ross, Democrats, and Robert E. Woodside, Republican.

FBI INFORMANT NAMES 72 REDS

WASHINGTON (AP)—A witness before the Senate Internal Security subcommittee Thursday named 72 persons he said he had known as Communists while an FBI informant within the party in eastern Pennsylvania for 10 years.

Ralph K. Heltzinger, a West Reading, Pa., bakery driver, testified he joined the Communist party at the request of the FBI on Aug. 18, 1944, and remained a member until July of this year.

He testified that he was secretary-treasurer of a Communist unit in Reading, adding that it had about 50 members when he left the party in July. He said he did not know its present membership.

Introduced in evidence was a list of 72 persons who Heltzinger said are or were members of the Communist party to his knowledge. He had prepared the list for the subcommittee at its request.

In Indonesia it has been found possible to produce 3,000 quarts of soybean milk on one acre.

Welfare Patients To Go To Hollidaysburg

HARRISBURG (AP)—Welfare Department patients will be assigned to Hollidaysburg State Hospital beginning Monday instead of the Harrisburg State hospital.

The change, announced Wednesday by the department, makes the Hollidaysburg institution responsible for patients from Blair and Bedford counties. The Harrisburg Hospital will continue to serve 11 other counties.

COMMUNISTS IN RUSSIA PUTTING BRAKES ON REDS IN OTHER LANDS

By WILLIAM L. RYAN
AP Foreign News Analyst

In advance of this year's anniversary of the Russian Revolution, theoreticians of the Soviet Communist party are going to great pains to point out a new course to their "brotherly Communist parties" abroad. They are telling them not to be in such an all-fired hurry for the revolution.

Recent articles have been illuminating on this score. One of the plainest appeared a week ago in Pravda, importantly played across the eight columns of the party newspaper's center fold. It contained a broad hint of what makes Soviet foreign policy tick today.

Moscow seems to be pulling the reins on the Communists abroad, fearing that any attempt now at a violent overthrow of an established government could lead to the world war the Kremlin seems to fear at this moment. The Kremlin has had to explain this patiently, in Communist talk, to the brethren abroad.

Capitalism Is Drying

Thus the Communists abroad are not to stop their efforts to undermine and embarrass governments in capitalist countries, and are not to stop propagandizing in favor of Moscow and world communism. But they are to proceed warily,

Wakens Wife To Say "Goodbye" At Death

CINCINNATI (AP)—Andrew E. Kelley, 64, ill for several years, awakened his wife, Charlotte, yesterday and told her he was going to die.

"I wanted to say goodbye to you first," he told her.

Then he clutched his rosary, murmured "God was good to me," turned his head and died, Mrs. Kelley said.

and to avoid "adventurism," which in the Communist language means setting out to accomplish something without assurance in advance of success.

The Communists abroad were told in the Pravda article, written by the influential editorialist A. Leontiev, that capitalism is dying anyway, that no force in the world can save it, that the world revolution sooner or later is inevitable, country by country.

Victory Assured

Communists can be patient, the article hints, because "contradictions" within the capitalist system and among capitalist states inevitably are leading to the run of those countries. The countries, Communists were told, are headed toward such notions as "Fascism, Hitlerism and McCarthyism," all described as manifestations of frayed capitalist nerves. Fascism, by this theory, would be the "last stage" of capitalism.

"There cannot be the shadow of a doubt of the outcome of the world struggle, that the final victory of socialism is fully and unconditionally assured," Leontiev wrote. "This conclusion is supported by all history."

SUMMERFIELD NAMES DISTRICT P.O. OFFICERS

WASHINGTON (AP)—Managers and assistant managers for six of the seven district offices of the post office department's new Philadelphia regional office have been named by Postmaster General Summerfield.

Set up Oct. 18, the Philadelphia regional office supervises 2,885 post offices in Pennsylvania, New Castle County, Del., and all of New Jersey except Hudson and Bergen Counties.

The regional office supervises district offices at Philadelphia, Pittsburgh, Erie, Harrisburg, Reading, Camden, N.J., and Newark, N.J. Top officials were named Wednesday for each district except Newark.

The regional office was formed in a decentralization program aimed at transferring much of the administrative work previously done in Washington to field offices. New district office heads are: Philadelphia—Manager, Joseph O. Hedlicka, now postmaster at Wilmington, Del.; assistant, Walter C. Snyder, now postmaster at Swarthmore, Pa.

Others Named

Pittsburgh—Manager, Robert McArthur, now a postal inspector there; assistant, James B. Hunter Jr., assistant superintendent of mails there.

Erie—Manager, Harold W. Miller, assistant postmaster at Sharon, Pa.; assistant, Joseph F. Steibel,

U.S. NAVY TOPS WORLD NAVIES

LONDON (AP)—A n authoritative naval publication says the fighting power of the U.S. Navy equals the combined strength of the other major navies of the world. The Americans also appear to be taking greater scientific strides than any other navy.

"Jane's Fighting Ships," a standard reference work on the world's navies, said in its latest edition yesterday the U.S. Navy of 5,000 vessels is the largest peacetime fleet ever maintained by any nation. Russia topped the United States only in numbers of submarines, Jane's said, but added that the Soviet Union is building up "substantial forces" of cruisers, destroyers and submarines.

Russia's underwater fleet was estimated at 370 to 400 vessels, as compared to 200 in the U.S. Navy.

ADVERTISE IN THE TIMES

TODAY IS 25TH ANNIVERSARY OF MARKET CRASH

By ED CREAGH
(For James Marlow)

WASHINGTON (AP)—Just 25 years ago today the bottom fell out of the New York Stock Exchange. The echoes of that spectacular crash still rumble around the world.

For the market crash of Oct. 29, 1929, heralded the greatest depression this country has ever known. It engulfed the United States in a worldwide economic morass that proved a breeding place for the seeds of World War II.

Perhaps as important as any other effect, the crash and the depression laid something to the American spirit.

They didn't, as they seemed for a time to threaten to do, make this a nation of pessimists. But they did, perhaps permanently, dampen a notion that Americans were destiny's tots—that this country was somehow exempt from the woes that were always besetting foreigners.

Started In March

Actually, the trouble didn't start Oct. 29. The market broke sharply as early as March of that year. It bounced back swiftly, however, and its very recovery served to discredit the few skeptics who kept asking how long this crazy spree of paper prosperity could continue.

On Sept. 3, 1929, the Associated Press average of 60 selected stocks

FLOOD DEATHS IN ITALY, 400

SALERNO, Italy (AP)—The wreckage of towns along the ravaged Gulf of Salerno gave up still more bodies today and the final death toll from Italy's greatest flood disaster was expected to reach or exceed 400.

The known dead numbered 288 on Thursday when seven more bodies were dug from wrecked homes at Molina di Vietri and Ponte Romano.

Hope was abandoned for many of the 200 or more persons listed as missing. It was believed many were swept out to sea or buried beneath their broken stone homes.

soared to an all-time peak: \$157.70 a share.

By the middle of that month the average began to drop, however. By October it was skidding several dollars each day. Oct. 24—still known as "Black Thursday"—saw the skid become a headlong tumble. A wild rush to sell wiped out five billion dollars in stock values in a single day.

Bottom Fell Out

The bottom finally fell out five days later—25 years ago today.

One thing most experts agree on—the nation isn't likely to have

another major depression.

What's to stop another 1929-type boom and bust? A number of things: tighter reins on speculation. Sounder values of stocks. Above all, perhaps, a long period of sobriety on the part of the American people—a realization that another gambling - on-the-market spree might end up in the same kind of post-1929 hangover.

So most experts say. But not all. J. Kenneth Galbraith, the Harvard economist, asks himself in the current Harper's magazine if 1929 can happen again—and answers: "of course." Never underestimate, says Galbraith, the ability of people to make fools of themselves when they think they see a chance to get rich.

THE LEADER PLAN

TURN LOOSE THE ENERGY IN PENNSYLVANIA... FOR FULL EMPLOYMENT... FULL PRODUCTION... FULL PROSPERITY WITHOUT WAR

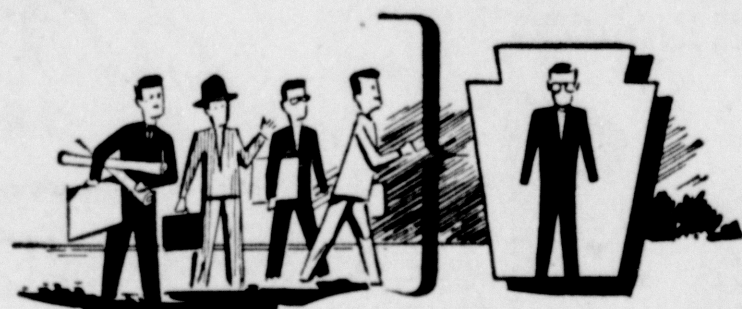

Today's world turns on energy—the energy of the atom, the energy of coal and oil, the energy of water power, the energy of men and women at work. Pennsylvania has energy in every form, but it isn't being used. Coal lies in the ground, machinery works part-time in the factories, railroad cars aren't moving, hundreds of thousands of skilled Pennsylvania workers are out of jobs or are working on shorter time.

Industry is being drawn away from Pennsylvania to states without our energy sources and without our skilled labor.

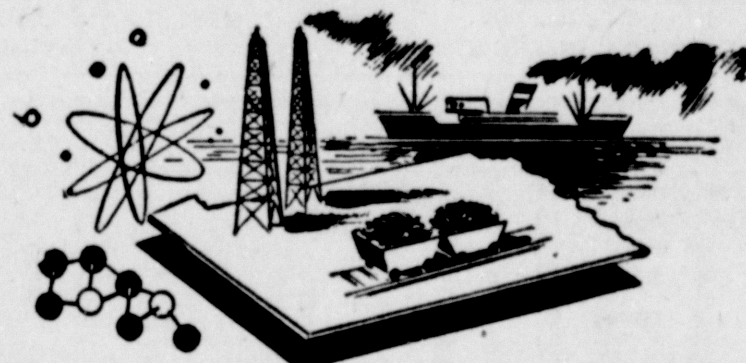

The National Government pretends the problem isn't real. The present State Government is incompetent to deal with it, and isn't even trying. I think it is the great problem of our time, and the one great issue of our politics in Pennsylvania. As Governor, I will make it the first, the constant, and the overriding business of my administration.

I regard such loss of energy as waste which our society can't tolerate. As Governor, I will use the full power of that office to bring full employment and full production back to Pennsylvania. *This is my plan:*

George M. Leader

1 Create a State Planning Commission, reporting directly to the Governor, on which the ablest of our citizens, regardless of party politics, can work with their State government; a State Department of Development; and Citizen Civic Councils in every county in the state.

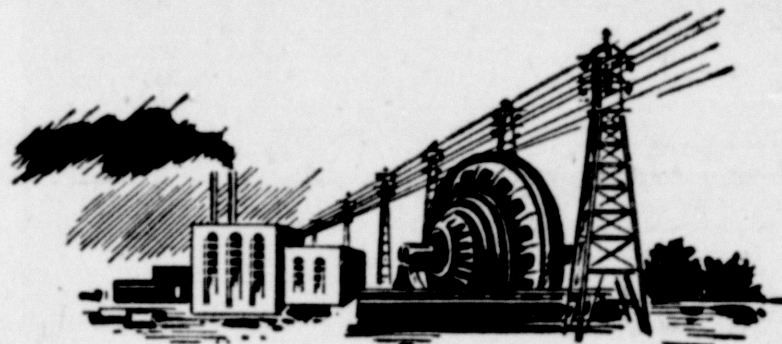

2 Determine the effect on Pennsylvania of the St. Lawrence Seaway, the development of atomic power, the parallel turnpike systems in other states, the change in ore supply for the steel industry, the effect of competing fuel on coal production, and take all necessary steps to prepare the economy of this state for the changes that will inevitably take place.

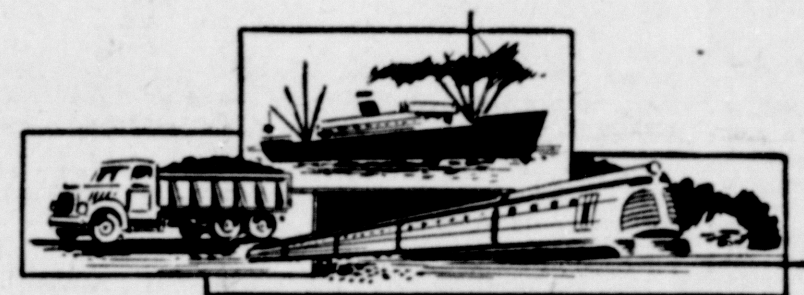

3 Make the coal industry, both bituminous and anthracite, the center of State and National attention through economic and scientific research; determine the maximum employment that the coal industry can provide; and find new employment opportunity for all whom the industry can no longer support in full-time well-paid jobs.

4 Use the full powers of the State, including an industrial authority, to bring employment to the depressed areas of Pennsylvania.

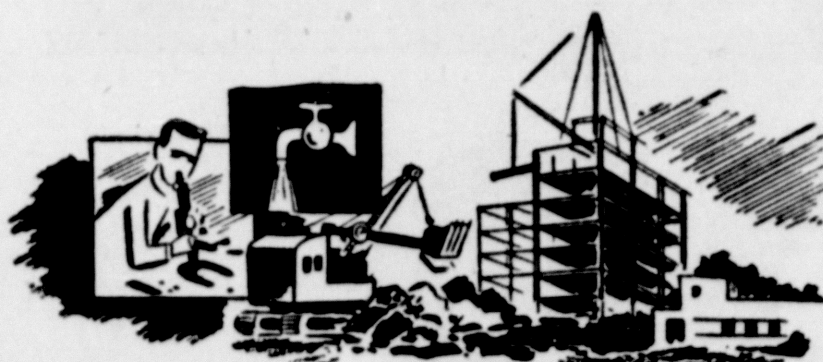

5 Help the development, insofar as the State can do so, of every power source in Pennsylvania; use the State's regulatory power to keep the cost of energy for industrial production at the lowest possible price; and protect and improve our water supply, which is also a vital raw material.

6 Help the development, insofar as the State can do so, of every means of transportation—rail, river, and truck; speed up the necessary extensions of the Turnpike, in which Pennsylvania pioneered but has lost ground to other states.

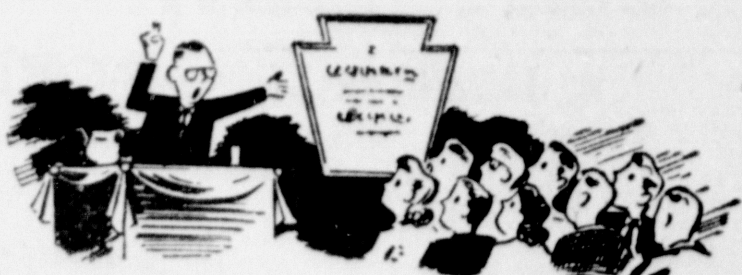

7 Develop a capable and energetic State mediation service so that labor disputes can be settled before strikes are called. Labor peace in Pennsylvania, based on sound understanding between labor and management, will help us attract new industries and expand the ones we already have.

8 Aid our cities in the work of urban redevelopment, community improvement, and slum clearance; assist them, where the State's aid is desirable, in meeting their problems of mass transportation, parking, water supply, the prevention of air pollution, the treatment of sewage, public health protection, and the development of recreation.

9 Aid our farmers to conserve and improve the fertility of their soil; the quality of their herds and crops; and the marketing of their products.

10 Speak for Pennsylvania and its people; fight their battles before the Congress and the National Administration; represent them before industry and labor; exert the leadership that is inherent in the office of Governor but which has been abused and brought into contempt.

11 Throw partisan politics out the window in carrying out this program.

REPUBLICANS ON WEST COAST FEARING LOSSES

Editor's Note—This is another in a series of summing-up stories by roving Associated Press reporters who are analyzing the campaign in various sections of the country.

By MORRIS LANDSBERG

SACRAMENTO, Calif., (AP)—The big political question in Washington, Oregon, California and Nevada today is whether an apparent Democratic upsurge will win for the party significant gains at the polls next Tuesday.

Only the voters can decide this point, of course, but Republicans do not deny the Democrats are showing potential strength in this off-year election. There are too many signs of a Democratic swing in the far western country which went solidly for President Eisenhower in 1952.

As an indication, Democratic registration in California increased by 154,827 and the Republican by 66,837 since the June primary. Democrats lead nearly 3 to 2 in the total signup—3,266,831 to 2,415,249.

How deep does the seeming Democratic trend go? Does it carry through Eisenhower's admitted personal popularity?

Election of 3 U.S. senators and 42 representatives, as well as state officers in three of the states, Washington, with no race for the Senate or Governor, will choose 7 representatives, California, 30; Oregon, 4; and Nevada, 1.

The record of both the Eisenhower administration and of the 83rd Congress runs through the campaigns like a meandering western river—a theme of broad importance in some areas, of thinning significance elsewhere.

The course of debate shoots off into bread-and-butter issues affecting the West's pocketbook. Public vs. private power in the Pacific Northwest. Farm prices and jobs in California. Tariff protection for mining in Nevada.

Democratic candidates are hitting away at what they term a power "giveaway" program, falling farm subsidies and continued high prices for consumer goods. They contend the people are disenchanted with the GOP record and show more than the normal off-year reaction against the party in power.

Six Rescue Trucks Assigned To Turnpike

HARRISBURG (AP)—The State Civil Defense Council Thursday assigned six fully-equipped white rescue trucks to full-time duty on the Pennsylvania Turnpike.

They will be stationed along the superhighway so that no section of the road will be beyond quick reach.

Freeze fruits and vegetables soon after they are packed. Put them in the freezer, a few packages at a time, as you have them ready. Or keep the packages in the refrigerator until all you are doing at one time are ready. Then transfer them to your freezer.

Jake, Young Python, Free On Key Biscayne

MIAMI, Fla., (AP)—Jake The Snake, a young 11-foot python, slithered somewhere on Key Biscayne today while Dade County Police and all available Crandon Park Zoo attendants renewed their efforts to bring him back alive.

Jake The Snake went AWOL sometime Wednesday night by squeezing between two overlapping layers of heavy screen wire.
